## RECENT PROJECTS

### TRAVELPAK | WEB & MOBILE APPLICATION

[jessicazhong.design/project2.html](http://jessicazhong.design/project2.html)

- A travel planning web and mobile application designed to help group travelers plan, manage and organize trips, making group travel planning easier than ever
- Utilized Sketch, InVision, Draw.io to create user flows, lofi wireframes, hi-mockups, usability testing in-person and Maze and branding work

### HEALTHPOINT | MOBILE APPLICATION

[jessicazhong.design/project1.html](http://jessicazhong.design/project1.html)

- A cloud-based mobile application that provides health enthusiasts an improved way to collect and store data, with the ability to analyze, connect and organize in the palm of their hand
- Utilized Sketch, Figma, Draw.io to create user flows, wireframes, mockups, usability testing and branding work

## EXPERIENCE

### BLOC.IO | UX/UI APPRENTICESHIP

Nov 2018 - June 2019

- Completing a 800+ hour immersive project-based online bootcamp under the mentorship of a senior UX professional
- Applying all design methodologies from user research, wireframes, mockups to functional prototypes using HTML, CSS and JavaScript
- Conducting user interviews and usability tests to gather feedback for creation of personas and iterations
- Developing brand identities, such as name, logo and style guide

### JOBVITE | HR GENERALIST

Apr 2017 - Jan 2019

- Spearheaded company's first Wellness Initiative, resulting in a 45% participation rate for the first year, across all programs for a company of 195 employees
- Implemented a candidate and new hire survey into Jobvite's platform to analyze tangible data regarding the health of Jobvite's brand and candidate experience
